This block of workshops offers a unique experience to individuals who are interested in the mix of creative and business based activity.

We will introduce you to working with a team of creative and imaginative artists and entrepreneurs in a studio environment to focus on the process behind realising a creative idea. It will provide you with the opportunity to think and experiment with the design process and put into practice a working method that aims to take you from idea to finished product. This will inform your wider practice as artists and develop your business thinking.

During the week's workshops you will share the studio space with professional artists and business people who will help to develop your ideas, thinking, and as part of a team, create a brand to produce products to market at an event held in the Room 13 studios on the Saturday and throughout the local area.

The artists you will be working with include:

Richard Bracken, Lead Visual Artist with Room 13 International

Robert Menzies, Lead Visual Artist with Room 13 International

You will also be joined by other artists and business people throughout the week.

All artists are covered by Disclosure Scotland PVG Scheme

WHAT'S EXPECTED OF YOU?

An open mind. An ability to work independently and also alongside other creative individuals as part of a team. A responsible attitude with a sense of focus and willingness to adapt to the discipline of shared studio working and lastly to make the most of the time and space available. Also bring your own lunch.
